PROFILE

- I'm interested in challenging projects that will make me grow on a human and professional level, taking advantage of the industrie's most in-demand technologies. I think everyone should have broad spectrum of knowledge and practice a wide range of disciplines. My experience in the music world provides me with an ideal set of soft skills that allow me to tackle any task from a creative and collaborative standpoint, which I consider pillars for a good work environment that leads to the best experiences and results.
